Carol of the Magi

Carol of the Magi

Verse 1

Light of our life your music makes sunshine
Bright is the flame of your song in our heart
Your light is the star that sang for creation
On mountain and valley on river and sea
Your seeds and your plants have longed for your leaven
Your song and your dance bring raindrops from heaven
From deep in the briars come scent of the blossom
And frost on our path with your sunlight will flee

Refrain

Light and Joy will be like a star in the night to see
Brightly shining light for the world to be free

Verse 2

Light is the child born in darkness and danger
received by pariah your refuge a manger
Light for the hearts of friend and outsider
Joy for the earth and a beacon to guide her
Far from the realm that a sword has invented
Light is the kingdom where children have entered
And wisdom will show that the dream is a warning
Not to return to the return to the ruler of mourning
